

Invitation for Bids Number: 23-24

Addendum 2

Date: March 8<sup>th</sup>, 2023

---

### **Acknowledgment of Addenda**

The undersigned acknowledges receipt of the following addenda to the bidding document:

**THE COMPLETED ACKNOWLEDGEMENT OF ADDENDA FORM  
SHOULD BE RETURNED WITH BID RESPONSE PACKAGE: NOT  
SENT TO RIPTA SEPARATELY**

NOTE: Failure to acknowledge receipt of all addenda may cause the bid to be considered non-responsive to the solicitation. Acknowledged receipt of each addendum must be clearly established and included with the bid.

Date

**Invitation for Bids Number: 23-24**

**Addendum 2**

**Date: March 8<sup>th</sup>, 2023**

---

This addendum serves to extend the due date for Proposals. The revised due date is **March 27<sup>th</sup> 1PM.**

Please see attached Required Forms Page.

This addendum also serves to answer vendor questions. See below.

ConstructConnect Questions:

What is the estimated construction budget?

The estimated budget may be found at [ripta.com](http://ripta.com) under reporting and transparency and operating budget.

Do you have Union Requirements?

No union requirements but we will be complying with the Davis-Bacon Act of prevailing wages.

Hartford Paving Questions:

I'm emailing to make you aware of the scale discrepancy on the plan set.

The plan scale reads 1" = 20' however upon doing the take off it appears to be scaling at 1"=66'.

This can vary in material quantities drastically and could lead to inaccurate bidding.

The typical plan view scale is 1" = 20' as noted in the lower title block. Drawings printed at full scale are 24" x 36". This was confirmed in Adobe, Bluebeam, and on a full size set of drawings. If plotting to a smaller paper size such as 11"x17", take note that the proper scaling (50%) is applied in the print dialogue. True half-size plans will scale at 1"=40'.

Tower Construction Corp Questions: Pt 1

Do we need to provide one original and one hard copy or one original and one USB, both are listed in the specifications on different pages.

One original and one USB is sufficient.

Is there a bid bond required for this project?

No

**Tower Construction Corp Questions: Pt 2**

1. Can you confirm what forms are to be submitted by subcontractors?  
**See attached**
2. Can you confirm that RIDLT apprenticeship requirements apply to all trades working onsite?  
**Yes**
3. Please confirm the prebid was mandatory, can you please provide a copy of the prebid sign in sheet.  
**Meeting was not mandatory. See attached.**
4. Will field testing costs be the responsibility of the owner? **By General Contractor**
5. Are there any unit prices we are to submit with our bid? **No**
6. Are there any allowances we are to carry in our bid? **No**
7. Will the data screens in the shelters be provided by the owner?  
**By General Contractor**
8. Is there a geotechnical report available? **No**
9. Can you provide a specification for the red surface coating?  
**For Bus Lane Pavement Markings refer to specification #321723 "Pavement Markings". Markings are a Methyl Methacrylate Acrylic (MMA) resin product.**
10. Can you confirm a bid bond is required for this project?  
**There is no bid bond for this project because of the timeline.**
11. Seeing there are liquidated damages on this project, once long lead times are established and a project schedule is developed at time of award, will the contractor be charged liquidated damages for long lead times for items that we cannot control?  
**The only anticipated long lead time would be the shelters which are excluded from being charged liquidated damages. The add alternate covers this possible issue.**
