A Proposal may be withdrawn in person by a Proposer, or his/her authorized representative provided his/her identity is made known and he signs a receipt for the Proposal if the withdrawal is prior to the exact time set for receiving the Proposals. Modifications of Proposals and requests for withdrawal of Proposals which are received in the office designated in the Request for Proposals after the exact time set for opening are "late modifications" and "late withdrawals" respectively. A late modification or late withdrawal will be subject to the rules and procedures applicable to late Proposals. construed as a contract made an to be performed in the State of Rhode Island.

EE. Protest.

1. General.

Protests will be accepted from prospective Proposers or Offerors whose direct economic interest would be affected by the award of a Contract or by failure to award a contract. The RIPTA Director of Purchasing will consider all protests or objections filed in a timely manner regarding the award of a contract, whether submitted before or after award. If the protest is oral and the matter cannot be otherwise resolved, written confirmation of the protest will be requested. Protest submissions should be concise, logically arranged, and clearly state the grounds for the protest. Protests must include at least the following information:

- a. Name, address, and telephone number of protester.
- b. Identification of the solicitation or Contract number.
- c. A detailed statement of the legal and factual grounds of protest, including copies of relevant documents.
- d. A statement as to what relief is requested.
- e. Protest should be sent to:
Director of Procurement
RI Public Transit Authority
Room 217
705 Elmwood Avenue
Providence, RI 02907
- f. Protests must be filed with the RIPTA in accordance with our procedures and time requirements. The protest to RIPTA must be complete and contain all the issues that the protester believes relevant. RIPTA will respond to each substantive issue raised in the protest. Failure to include an issue in the protest eliminates that issue from further consideration. All protest decisions entered by RIPTA are final in accordance with FTA "Third Party Contract" Regulation.
- g. On occasion, when considered appropriate, an informal conference on the merits of the protest with all interested parties may be held.

FF. Protests before Award

1. Solicitation Phase.

Protests concerning the solicitation must be submitted in writing five (5) working days prior to Proposal opening or closing date for receipt of Proposals. If the written protest is not received by the time specified, award may be made in the normal manner unless the Director of Purchasing, upon investigation, finds that remedial action is required. Oral protests not followed up by a written protest will be disregarded.

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

Notice of a protest and the basis therefore will be given to all potential Proposers or Offerors.

2. Pre-Award Phase.

When a protest against the making of an award is received after receipt of Proposals but prior to award, the Director of Purchasing may determine to withhold the award pending disposition of the protest. The proposer or proposers whose Proposals might become eligible for award should be requested, before expiration of the time for acceptance of their Proposals, to extend the time for acceptance (with consent of sureties, if any) to avoid the need for re-advertising. RIPTA will provide a written response to each material issue raised in the written protest.

Where a written protest against the making of an award is received in the time specified, award will not be made prior to five (5) working days after resolution of the protest. If a protest has been filed with FTA, award will not be made during the pendency of that protest. **It should be noted that the FTA will not substitute its judgment for that of RIPTA unless the matter is primarily a Federal concern.**

Circumstances where RIPTA would allow an exception to the stated protest award policy are:

- a. The items to be procured are urgently required.
- b. Delivery or performance will be unduly delayed by failure to make award promptly; or,
- c. Failure to make award will otherwise cause undue harm to RIPTA or the Federal Government.

If award is made, the Director of Procurement will document the file to explain the need for an award and will give written notice of the decision to proceed with the award to the protester and, as appropriate, to others concerned.

GG. Protests after Award.

A protest received not later than 10 (ten) working days after award shall be reviewed by the Director of Purchasing. The Contractor will, in any event, be furnished with the notice of protest and the basis, therefore. When it appears likely that an award may be invalidated and a delay in receiving the supplies or services is not prejudicial to the Authority's interest, the Director of Purchasing should consider a mutual agreement with the Contractor to suspend performance on a no-cost basis.

HH. Source Selection and Contract Award

The contract shall be awarded with reasonable promptness by written notice to the responsive and responsible Proposers whose Proposal will be evaluated using a best value approach. The ultimate selection of an offeror will be on the basis of overall best value to the Authority.

II. Title VI Assurances

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

"Program Fraud Civil Remedies" 49 C.F. R. Part 31, apply to its actions pertaining to this Project. Upon execution of the underlying contract, the Contractor certifies or affirms the truthfulness and accuracy of any statement it has made , it makes, it may make, or causes to be made, pertaining to the underlying contract or the Federal Transit Administration assisted project for which this contract work is being performed. In addition to other penalties that may be applicable, the Contractor further acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission, or certification, the Federal Government reserves the right to impose the penalties of the Program Fraud Civil Remedies Act of 1986 on the Contractor to the extent the Federal Government deems appropriate.
2. The Contractor also acknowledges that if it makes, or causes to be made, a false, fictitious, or fraudulent claim, statement, submission or certification to the Federal Government under a contract connected with a project that is financed in whole or in part with Federal assistance originally awarded by the FTA under the authority of 49 U.S.C. § 5307, the Government reserves the right to impose the penalties of 18 U.S.C. § 5307 (n) (1) on the Contractor, to the extend the Federal Government deems appropriate.
3. The Contractor agrees to include the above two clauses in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clauses shall not be modified, except to identify the subcontractor who will be subject to the provisions.

LL. No Government Obligation to Third Parties:

1. The Purchaser and the Contractor acknowledge and agree that, notwithstanding any concurrence by the Federal Government in or approval of the solicitation or award of the underlying contract, absent the express written consent by the Federal Government, the Federal Government is not a party to this contract and shall not be subject to any obligations or liabilities to the Purchaser, Contractor, or any other

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

party (whether or not a party to that contract) pertaining to any matter resulting from the underlying contract.

2. The Contractor agrees to include the above clause in each subcontract financed in whole or in part with Federal assistance provided by FTA. It is further agreed that the clause shall not be modified, except to identify the subcontractor who will be subject to its provisions.

MM. Veteran's Employment

The Contractor shall ensure that contractors working this project shall give a hiring preference, to the extent practicable, to veterans (as defined in Section 2108 of title 5) who have the requisite skills and abilities to perform the work required under the contract. This shall not be understood, construed, or enforced in any manner that would require an employer to give a preference to any veteran over any equally qualified applicant who is a member of any racial or ethnic minority, female, an individual with a disability, or a former employee.

NN. Solid Waste (Recycled Products)

This Contract must comply with Section 6002 of the Solid Waste Disposal Act as amended by the Resource Conservation and Recovery Act. The requirements of Section 6002 include procuring only items designated in guidelines of the Environmental Protection Agency (EPA) at 40 C.F.R. part 247 that contain the highest percentage of recovered materials practicable, consistent with maintaining a satisfactory level of competition, where the purchase price of the item exceeds \$10,000 or the value of the quantity acquired during the preceding fiscal year exceeded \$10,000; procuring solid waste management services in a manner that maximizes energy and resource recovery; and establishing an affirmative procurement program for procurement of recovered materials identified in the EPA guidelines.

OO. Prohibition on certain telecommunications and video surveillance services or equipment.

Vendors responding to this contract are prohibiting from providing the equipment that uses covered telecommunications equipment or services as a substantial or essential component of any system, or as critical technology as part of any system. As described in Public Law 115–232, section 889, covered telecommunications equipment is telecommunications equipment produced by Huawei Technologies Company or ZTE Corporation (or any subsidiary or affiliate of such entities). (i) For the purpose of public safety, security of government facilities, physical security surveillance of critical infrastructure, and other national security purposes, video surveillance and telecommunications equipment produced by Hytera Communications Corporation, Hangzhou Hikvision Digital Technology Company, or Dahua Technology Company (or any subsidiary or affiliate of such entities). PP. Disputes, Breaches, Defaults, and Litigation.

The FTA Interest. FTA has a vested interest in the settlement of any violation of federal law, regulation, or requirement, or any disagreement involving the Award, the accompanying Underlying Agreement, and any Amendments thereto including, but not limited to, a default, breach, major dispute, or litigation, and FTA reserves the right to concur in any settlement or compromise. (b) Notification to FTA; Flow Down Requirement. If a current or prospective legal matter that may affect the Federal Government emerges, the RIPTA must promptly notify the FTA Chief Counsel and FTA Regional Counsel for the Region in which the RIPTA is located. The Contractor must include a similar notification requirement in its subcontracts at every tier, for any agreement that is a “covered transaction” according to 2 C.F.R. §§ 180.220 and 1200.220. (1) The types of legal matters that require notification include, but are not limited to, a major dispute, breach, default, litigation, or naming the Federal Government as a party to litigation or a legal disagreement in any forum for any reason. (2) Matters that may affect the Federal Government include, but are not limited to, the Federal Government’s interests in the Award, the accompanying Underlying Agreement, and any Amendments thereto, or the Federal Government’s administration or enforcement of federal laws, regulations, and requirements. (3) Additional Notice to U.S. DOT Inspector General. RIPTA shall promptly notify the U.S. DOT Inspector General in addition to the FTA Chief Counsel or Regional Counsel for the Region in which the RIPTA is located, if the RIPTA has knowledge of potential fraud, waste, or abuse occurring on a Project receiving assistance from FTA. The notification provision applies if a person has or may have submitted a false claim under the False Claims Act, 31 U.S.C. § 3729, et seq., or has or may have committed a criminal or civil violation of law pertaining to such matters as fraud, conflict of interest, bid rigging, misappropriation or embezzlement, bribery, gratuity, or similar misconduct involving federal assistance. This responsibility occurs whether the Project is subject to this Agreement or another agreement between the RIPTA and FTA, or an agreement involving a principal, officer, employee, agent, or Third-Party Participant of the RIPTA. It also applies to subcontractors at any tier. Knowledge, as used in this paragraph, includes, but is not limited to, knowledge of a criminal or civil investigation by a Federal, state, or local law enforcement or other investigative agency, a criminal indictment or civil

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

complaint, or probable cause that could support a criminal indictment, or any other credible information in the possession of RIPTA. In this paragraph, "promptly" means to refer information without delay and without change. This notification provision applies to all divisions of the RIPTA, including divisions tasked with law enforcement or investigatory functions. (c) Federal Interest in Recovery. The Federal Government retains the right to a proportionate share of any proceeds recovered from any third party, based on the percentage of the federal share for the Underlying Agreement. Notwithstanding the preceding sentence, RIPTA may return all liquidated damages it receives to its Award Budget for its Underlying Agreement rather than return the federal share of those liquidated damages to the Federal Government, provided that RIPTA receives FTA's prior written concurrence. (d) Enforcement. RIPTA must pursue its legal rights and remedies available under any third-party agreement or any federal, state, or local law or regulation.

VII. GENERAL PROVISIONS

A. Definitions:

As used throughout this Contract, the following terms shall have the meanings set forth below:

1. Authority

Authority means Rhode Island Public Transit Authority (RIPTA).

2. Contracting Manager

the person executing this Contract on behalf of the Authority, and his or her successor, and the term includes, except as otherwise provided in this Contract, the authorized representative of a Contracting Officer acting within the limits of his authority.

3. Directed, Ordered, designated, or prescribed.

Wherever in the scope of the work the words directed, ordered, designated, prescribed, or words of like importance are used, it shall be understood that the direction, requirement, order, designation, or prescription of the Contracting Manager is intended and similarly the words approved, acceptable, satisfactory, or words of like importance shall mean approved by, or acceptable to, satisfactory to the Contracting Officer, unless expressly stated.

B. Changes:

The Contracting Officer may at any time, by a written order, and without notice to the sureties, make changes within the general scope of this Contract. If any such changes cause an increase or decrease in the cost of, or the time required for, the performance of any part of the work under this Contract, whether changed or not changed by the order, the Contracting officer shall make an equitable adjustment in the Contract price, the delivery schedule, or both, and shall modify the Contract.

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

The Contractor must assert its right to an adjustment under this article within 30 days from the date of receipt of the written order. Failure to agree to any adjustment shall be a dispute under the Disputes article. However, nothing in this article shall excuse the Contractor from proceeding with the contract as changed.

C. Extras:

Except as otherwise provided in this Contract, no payment for extras shall be made unless such extras and the price therefore have been authorized in writing in advance by the Contracting Officer.

D. Inspection:

All supplies, which term throughout this article includes without limitation raw materials, components, intermediate assemblies, and end products, shall be subject to inspection and test by the Authority, to the extent practicable at all times and places including the period of manufacture, and in any event prior to acceptance.

In case any supplies or lots of supplies are defective in material or workmanship or otherwise not in conformity within the requirements of this Contract, the Authority shall have the right either to reject them or require their correction. If any inspection or test is made by the Authority on the premises of the Contractor or a subcontractor, the Contractor without additional charge shall provide all reasonable facilities and assistance for the safety and convenience of the Authority inspectors in the performance of their duties.

All inspections and tests by the Authority shall be performed in such a manner as not to unduly delay this work. The Authority reserves the right to charge to the Contractor any additional cost of Authority inspection and test when supplies are not ready at the time such inspection and test is requested by the Contractor or when re-inspection or retest is necessitated by prior rejection. Acceptance or rejection of the supplies shall be made as promptly as practicable after delivery, except as otherwise provided in this Contract; but failure to inspect and accept or reject supplies shall neither relieve the Contractor from responsibility for such supplies as are not in accordance with the contract requirements nor impose liability on the Authority, therefore. The inspection and test by the Authority of any supplies or lots thereof does not relieve the Contractor from any responsibility regarding defects or other failures to meet the Contract requirements, which may be discovered prior to acceptance. Except as otherwise provided in this Contract, acceptance shall be conclusive except as regard latent defects, fraud, or such gross mistakes as amount to fraud. The Contractor shall provide and maintain an inspection system acceptable to the Authority covering the supplies hereunder. Records of all inspection work by the Contractor shall be kept complete and available to the Authority during the performance of this Contract and for such longer period as may be specified elsewhere in this Contract.

E. Responsible:

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

Notwithstanding the requirements for any Authority inspection and test contained in Specifications applicable to this Contract, except where specialized inspections or tests are specified for performance solely by the Authority, the Contractor shall perform or have performed the inspections and tests required to substantiate that the supplies and services provided under the contract conform to the Drawing, Specifications and Contract requirements.

F. Title and Risk of Loss

Unless this Contract specifically provides for earlier passage of title, title to supplies covered by this Contract shall pass to the Authority upon formal acceptance. Unless this Contract specifically provides otherwise, risk of loss of or damage to supplies covered by this Contract shall remain with the Contractor, until acceptance by the Authority.

Notwithstanding the above, the risk of loss of or damage to supplies which so fail to conform to the Contract as to give a right of rejection shall remain with the Contractor until cure or acceptance, at which time the above shall apply.

G. Storage of Contractor Material on RIPTA Property

The Authority will not accept responsibility for any Contractor Material stored on RIPTA Property. It shall be the responsibility to provide a secure, method of storing their material on RIPTA Property.

H. Payments

The Contractor shall be paid, upon the submission of proper invoices or vouchers, the prices stipulated herein for supplies delivered and accepted or services rendered and accepted, less deductions, if any, as specified. The failure to perform may result in partial or full suspension of payment and/or process payment. The Authority's payment terms are 60 days after approval of an invoice unless otherwise negotiated.

I. Stop Work Order

The Contracting Manager may, at any time, by written order to the Contractor, require the Contractor to stop all, or part of the work called for by this Contract. Any such order shall be specifically identified as a STOP WORK ORDER issued pursuant to this article. Upon receipt of such an order, the Contractor shall forthwith comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage.

J. Disputes

1. Except as otherwise provided in this Contract, any dispute concerning a question of fact arising under this Contract which is not disposed of by agreement shall be decided by the Contracting Officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Contractor. The decision of the Contracting Officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Contractor mails or otherwise furnishes to the Contracting Officer a written appeal addressed to the Chief Executive

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

Officer. The decision of the Chief Executive Officer or his/her duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith or is not supported by substantial evidence. In connection with any appeal proceeding under this article, the Contractor shall be awarded an opportunity to be heard and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the Contractor shall proceed diligently with the performance of the contract and in accordance with the Contracting Officer's decision.

- 2 This **DISPUTES** article does not preclude consideration of questions of law in connection with decisions provided for in paragraph a. above. Nothing in this Contract, however, shall be construed as making the final decisions of the General Manager of his/her representative on a question of law.

K. Default

1. The Authority may, subject to the provisions of paragraph b. below, by written notice of default to the Contractor, terminate the whole or any part of this Contract in any one of the following circumstances:
 - a. If the Contractor fails to make delivery of the supplies or to satisfactorily perform the services within the time specified herein or any extension thereof; or
 - b. If the Contractor fails to perform any of the other provisions of this Contractor, or so fails to make its terms, and in either of these two circumstances does not cure such failure within a period of 10 days (or such longer period of as the Contracting Officer may authorize in writing) after receipt of notice from the Contracting Officer specifying such failure
2. Default without the fault or negligence of the Contractor. Such causes may include, but are restricted to, acts of God or of the public enemy, acts of the Government in its sovereign capacity or the Authority in its contractual capacity, fires, floods, epidemics, quarantine restrictions, strikes, freight embargoes, and unusually severe weather; but in every case the failure to perform must be beyond the control and without the fault or negligence of the Contractor.
3. If the Contractor fails to deliver the supplies or satisfactorily perform the services within the time specified in this Contract, or any extension thereof, the actual damage to the Authority for the delay will be difficult or impossible to determine. Therefore in lieu of actual damages, the Contractor shall pay to the Authority as fixed, agreed, and liquidated damages for each calendar day of delay, the amount set forth elsewhere in this Contract. The Contractor shall not be charged with liquidated damages when the delay arises out of causes beyond the control and without the fault or negligence of the Contractor, and

Any employee listed on the payroll at a trainee rate who is not registered and participating in a training plan approved by the Employment and Training Administration shall be paid not less than the applicable wage rate on the wage determination for the classification of work actually performed. In addition, any trainee performing work on the job site in excess of the ratio permitted under the registered program shall be paid not less than the applicable wage rate on the wage determination for the work actually performed. E. Good Faith Efforts for DBE Participation:

If the apparent successful Contractors' submissions do not satisfy the goal, RIPTA shall determine whether the apparent successful competitor has made good faith efforts to obtain DBE participation in accordance with the guidelines stated in Paragraph F, Sub-paragraph 1, below.

Unsuccessful efforts in gaining DBE participation must be documented on the "DBE Unavailability Certification" attached hereto as Attachment D. Meeting the DBE contract goals or making good faith efforts to meet the goals is a condition of receiving a Federal Transit Administration assisted contract for which contract goals have been established by RIPTA.

The legitimacy of each DBE or disadvantaged-majority joint venture shall be determined by RIPTA, based on the information submitted in the affidavits attached hereto as Attachments C and D. RIPTA will require all prime contractors to make good faith efforts to replace a DBE subcontractor that is unable to perform successfully with another DBE. RIPTA shall approve all substitutions of subcontractors **before** award of contract and **during** contract performance, in order that substitute firms are eligible DBE's.

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

F. Procedure Prior to Contact Award

1. Guidance Concerning Good Faith Efforts to Meet DBE Contract Goals.

RIPTA may decide that a Contractor that has failed to meet DBE contract goals may receive the Contract upon determining that the efforts the Contractor made to obtain DBE participation were “good faith efforts” to meet the goal. RIPTA shall not consider efforts that are merely pro forma to be good faith efforts to meet the goals, even if they are sincerely motivated, if, given all relevant circumstances, they could not reasonably be expected to produce a level of DBE participation sufficient to meet the goals. In order to award a contract to a Contractor that has failed to meet DBE contract goals, RIPTA must determine that the competitor’s efforts were those that, given all relevant circumstances, a competitor, actively and aggressively seeking to meet the goals would make.

Following is a list of the kinds of efforts RIPTA may consider. The list is not exclusive or exhaustive and in appropriate cases, RIPTA shall consider other relevant factors or types of efforts. RIPTA shall consider not only the different kinds of efforts the contractor has made, but also the quantity and intensity of those efforts. All information must be in writing and copies of all ads, written notices, follow-up letters and/or all other correspondence must be presented whenever a waiver is asked for.

RIPTA will consider the following efforts:

- i. whether the contractor attended any pre-solicitation or pre-Proposal meetings that were scheduled by RIPTA to inform DBEs of contracting opportunities.
- ii. whether the contractor advertised in general circulation, trade association, and disadvantaged focus media concerning the sub-contracting opportunities.
- iii. whether the contractor provided written notice to a reasonable number of specific DBEs that their interest in the contract was being solicited in sufficient time to allow the DBEs to participate effectively.
- iv. whether the contractor followed up initial solicitation of interest by contracting DBEs to determine with certainty whether the DBEs were interested.
- v. whether the contractor selected portions of the work to be performed by DBEs in order to increase the likelihood of meeting the DBE goals including, where appropriate, breaking down contracts into economically feasible units to facilitate DBE participation.

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

- vi. whether the contractor provided interested DBEs with adequate information about the plans, specifications, and requirements of the contract.
- vii. whether the contractor negotiated in good faith with interested DBEs, not rejecting DBEs as unqualified without sound reasons based on a thorough investigation of their capabilities.
- viii. whether the contractor made efforts to assist interested DBEs in obtaining bonding lines of credit, or insurance required by RIPTA or contractor; and
- ix. Whether the contractor effectively used the services of available disadvantaged community organizations, disadvantaged contractor's groups, Local, State and Federal disadvantaged business assistance offices, and other organizations that provide assistance in the recruitment and place of DBEs.

G. Termination of DBE Subcontractors

In any case when a prime contractor wishes to either: A: decrease the price to be paid to the DBE and the disadvantaged non-disadvantaged joint venture or to B: terminate a DBE firm, the prime contractor must first provide the DBE with five days' notice of the prime contractor's intent and reason to terminate the contract between them, and must also advise the DBE firm that it has the right to contact RIPTA to object to the termination. In addition, after the five-day written notice to the DBE has expired, the prime contractor must provide RIPTA with a written request to approve termination. The request must state the business reason why the prime contractor wishes to terminate the contract and must include all documentation in support of that business reason. A prime contractor may only reduce the scope or terminate a DBE firm for cause. It may not terminate a DBE contract for convenience. A DBE firm may not be terminated until written approval has been provided by RIPTA. If RIPTA approves a request to terminate, the prime contractor must make a good faith effort to substitute another DBE firm to replace the firm that has been terminated. This good faith effort shall be documented and subject to review by RIPTA. Failure to make a good faith effort may be deemed a breach of the prime contractor's contract with RIPTA and may result in the prime contractor being barred from submitting proposals on future RIPTA projects or subject to any other remedy RIPTA deems appropriate.

H. Substitution of Subcontractors

RIPTA shall review for its approval all substitutions of subcontractors in order to determine if the percentage goal will be decreased by substitution of a disadvantaged contract/supplier with a non-disadvantaged contractor/supplier.

Where RIPTA has approved termination of a sub-contract held by an DBE or disadvantaged non-disadvantaged joint venture, the successful Proposers

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

shall make every reasonable effort to propose and enter into an alternative sub-contract or subcontracts for the same work to be performed by another qualified DBE for a contract price or prices totaling not less than the contract price of the terminated sub-contract. Satisfactory evidence of reasonable efforts shall be timely furnished by RIPTA.

I. Program Compliance

Discrimination on the basis of race, color, religion, age, national origin, sexual orientation, disability, gender identity or expression or veteran status shall not be tolerated under any circumstance. RIPTA shall monitor the schedule for DBE participation in an effort to isolate those prime contractors who do not adhere to the non-discriminatory policies of RIPTA. If such contractor fails to respond to counseling with respect to the disposition of subcontracts pertaining to RIPTA funds, RIPTA reserves the right to terminate the contract and to consider future Proposals of such contractor to be non-responsive in the absence of written assurance from it of the full opportunity for DBEs to participate in its awards of subcontracts, together with the follow-up to verify such participation.

J. Maintenance of Records

All records relating to the contract shall be maintained by the contractor for a period of three (3) years after project completion.

K. Prompt Payment

The prime contractor agrees to pay each subcontractor under this prime contract for satisfactory performance of its contract no later than 30 days from the receipt of each payment the prime contractor receives from RIPTA. The prime contractor agrees further to return retainage payments to each subcontractor within 30 days after the subcontractor's work is satisfactorily completed. Any delay or postponement of payment from the above reference period may occur only for good cause following written approval of RIPTA. This clause applies to both DBE and non-DBE subcontractors. RIPTA reserves the right to hold payments to the Contractor if payments verification logs are not submitted within 30 days of payments. Failure to submit payments to DBE subcontractors within 30 days will result in action by RIPTA up to and including disqualification from any future RIPTA Procurements.

L. Monitoring Payments to DBEs

RIPTA requires that prime contractors to maintain records and documents of payments to DBEs following the completion of the contract. These records will be made available for inspection upon request by any authorized representative of RIPTA or United States Department of Transportation. This requirement also extends to any DBE Subcontractor. Reports of payments to DBE Subcontractors shall be provided to the RIPTA DBE Liaison Officer on a monthly basis. Failure to submit these reports on a timely basis may result in delay of payments.

SCOPE OF WORK

Scope of Services – 2024 RIPTA Rider Survey

Project Purpose and Background

The Rhode Island Public Transit Authority seeks a qualified consultant to plan and conduct a comprehensive on-board rider survey for RIPTA's existing transit network. In accordance with the federal requirements detailed in FTA Circular 4702.1B, RIPTA is required to conduct a survey to gather "information on the race, color, national origin, English proficiency, language spoken at home, household income and travel patterns of their riders." The survey will also collect demographic information on "fare usage by fare type amongst minority users and low-income users, in order to assist with fare equity analyses." Maintaining Title VI compliance is one of several desired outcomes RIPTA has for this project. The survey will also function to help the authority better understand and serve its riders, develop and alter policies based on accurate data, inform long-range transit planning projects, and optimize marketing efforts. The project will require a consulting team with the ability to support these purposes and provide post-survey analysis and data presentations for a variety of audiences. This is a one-year contract with up to two renewal options to be exercised at the sole discretion of RIPTA.

Scope of Services

RIPTA seeks a Contractor to design and conduct an on-board survey of existing riders for each RIPTA route. The survey must gather a statistically significant pool of passenger data. It will be written strategically to be accessible for any rider and to collect specific and accurate information about the following, at minimum:

- Origin/Destination – address and geographic location of riders' origin and destination, boarding and alighting bus stops, transfers, first/last mile mode of access
- Transit System Use – frequency of use, current trip purpose, years as RIPTA customer, use of RIPTA for commute to school or work, and at what school or employer(s)
- Automobile Access/Use – possession of driver's license, functional automobile access
- Fare Information – fare media used for current trip, knowledge of and use of Wave card, source of fare product (paid for by self, from an institution, and/or through a RIPTA fare program)
- Demographics – gender, race, household income, household size, workers in household, available vehicles in household
- Language – English proficiency, languages spoken, and languages spoken at home
- Transit System Vision – what changes riders would like to see in the future

RHODE ISLAND PUBLIC TRANSIT AUTHORITY

Request for Proposals Number 24-24

As part of the survey plan, the Contractor shall clearly state any assumptions relied upon in developing the plan, and clearly articulate a survey methodology.

The Contractor shall recommend a sample size based on an acceptable margin of error and address how the target number of survey responses will be collected. The Contractor shall strategically design the survey to minimize non-response bias, both for the overall sample as well as for subgroups of minorities, disabled individuals, and Limited English Proficient individuals. The survey shall be designed to optimize simplicity and accessibility. It should include an option at the end for riders to opt into future surveys to provide additional service feedback and information.

Every route in the system must be sampled by surveyors who ride along the entire route, covering all geographic areas. Sufficient rider information must be gathered to reliably determine the origin and destination of each surveyed customer. The result, after cleaning and removal of invalid responses, must be a statistically valid sample for each route of the RIPTA fixed-route and Flex system. The Survey Plan shall also outline how surveyors will be trained and what, if any, incentive program will be used to encourage participation.

SCOPE OF WORK

The Contractor shall provide a specific and detailed description of how the surveys will be conducted. RIPTA is open to recommendations for information collection methods; it is expected that the Contractor will ensure that in-person efforts conducted by its surveyors comply with all state and federal health and safety regulations.

DELIVERABLES:

- Survey Plan (Draft/Final)
- Survey Instrument (Draft/Final)

- (3) **TRANSLATION AND PRE-TESTING.** The Contractor shall translate (or secure translation of) the survey instrument and associated materials into Spanish and Portuguese consistent with RIPTA's Language Assistance Plan and Public Participation Plan. Draft materials shall be provided to RIPTA for approval prior to finalization.

The Contractor shall pre-test each survey instrument with no fewer than 20 respondents. The Contractor will provide RIPTA with a brief written evaluation report of the pretest results, including any recommendations for changes or improvements. All changes must be approved by RIPTA.

DELIVERABLES:

- Survey instruments and associated materials, in English and translated consistent with RIPTA guidance (Draft/Final)
- Pre-test results and associated report

- (4) **SURVEY.** Sufficient surveys must be collected so that a statistically valid sample is provided for each route after invalid responses have been discarded through the data cleaning and validation process. "Statistically valid" is defined here as having a confidence level of 0.95 or better and a confidence interval of +/- 10 or better. If the statistically valid calculated sample size represents more than 50% of the route's daily average ridership, then a smaller sample size representing 50% of the average daily ridership will be acceptable (after cleaning and validation).

Additionally, if the calculated sample size represents 10% or less of the average daily ridership, additional surveys must be collected so that at least 10% of riders are surveyed (after cleaning and validation).

The survey must be administered in October of 2024 and timed to avoid major school breaks, holidays, and winter storms. The consultant is expected to conduct required training to ensure that surveyors are well versed in procedures and understand how to accurately collect data. Training should ensure that staff communicates to riders what information the survey collects, what the

information will be used for, how identifying information is not collected, and the option of completing the survey off-board. Surveys shall be conducted on-board (or off-board only once contact is made on-board) and during both weekday and weekend days, as collectively determined by RIPTA and the Contractor. Resulting data shall be stratified by bus route. Data captured over a period of not less than 7 days and not more than 30 days is preferred. The Contractor must collect enough data to yield robust, representative, and statistically reliable results for the study.

The Contractor will be responsible for:

- Overall workflow throughout the survey period
- Number and coordination of surveyors, supervisors, coders, and other personnel
- Schedule for conducting surveys
- Coordinating all field data collection activities, including working with designated operations personnel to ensure that the survey and counts are conducted with due consideration to operations logistics
- Coordinating with RIPTA's Marketing staff for online data collection activities if applicable
- Working with the RIPTA project manager to address any problems or concerns that arise
- Translation and LEP outreach
- Executing strategies to increase accessibility and effective outreach to ensure accurate representation of hard-to-reach populations in survey results

DELIVERABLES:

- Regular progress reports
- A digital copy, in Microsoft Excel format, of all survey data collected (uncleaned)

(5) **DATA CLEANING/POST SURVEY PROCESSING:** All survey data shall be cleaned of any invalid or incomplete responses, in accordance with quality control procedures detailed in the survey plan, to the point that all remaining entries include, at a minimum, reliably geocodable origin, destination, boarding, and alighting locations. Contractor shall provide pricing of the following types of reporting tools, some or all of which may be requested by RIPTA:

- Survey report presenting findings in graphical and narrative format
- Origin-Destination analysis in graphical and narrative format
- System-wide unique rider statistics

Project Timeline

This survey is required to maintain federal compliance and must be completed in accordance with a strict timeframe. RIPTA seeks proposals that provide for surveying work being performed in October 2024 and a complete draft of the processed data deliverables by the end of January 2025.

Proposals must include a timeline for the design, testing, and administration of the survey as well as a statement affirming the proposer's ability to expeditiously mobilize and implement the project, providing the necessary staffing and carrying out each project task within the above-referenced timeframe. Proposals that demonstrate such capability through previous experience are preferred. If previous experience is provided, please include contact information for reference.

Evaluation Factors

Proposals submitted for the Rider Study will be evaluated on four factors. These factors will be scored by a panel of RIPTA staff, and the applicant with the highest-scored proposal will be awarded the contract. These factors are:

- Qualifications and Previous Experience (30%) – Each member of the proposed project team, including sub-contractors, must include a resume and qualifications for this project. Successful qualified firms include:
 - Firm/team experience in on-board rider survey design and implementation

SCOPE OF WORK

- Designated Project Manager with demonstrated project management experience in survey design and implementation, including successful experience with surveying individuals with accessibility needs, such as visually impaired riders.
- Firm/team experience in travel demand modeling
- Firm/team experience in federal civil rights compliance

In addition, applications should include up to three applicable projects of a similar scope. For each project, applications should include a project description not exceeding two pages in length as well as the complete survey instrument. For proposals that provide more than three projects, additional projects after the first three will not be considered. Contact phone number and email addresses for the previous projects must be included.

- Project Design (35%) – Proposals must include a clear, concise description of how the project is proposed to be carried out, including project methodology, technology to be used, staffing and training strategies, a preliminary timeline, and appropriate safety measures.
- Cost (25%) – Each proposal must include an overall project cost as well as a cost for each task and deliverable identified in this scope. Applicants that do not provide this information will be deemed Non-Responsive and will not be considered for review. Staff hours and pay rates should correspond to the value of each task item they are assigned.
- Timeline (10%) – Proposals must include a statement affirming the proposer's ability to expeditiously mobilize and implement the project, providing the necessary staffing and carrying out each project task within the required timeline. Proposals that demonstrate such capability through previous experience are preferred. If previous experience is provided, please include contact information for reference.

Submittal Format

Submittals must include a narrative describing how the proposal addresses the Evaluation Factors above relating to Qualifications, Previous Experience, Project Design, and ability to meet the Project Timeline. This narrative may not exceed 10 pages, exclusive of attachments.

In addition, the following attachments are required:

- Resumes for all members of the proposed project team, including sub-contractors, documenting overall team experience in on-board rider survey design and implementation, project management, travel demand modeling, federal civil rights compliance, and additional relevant skills and experience.

SCOPE OF WORK

- Descriptions, not to exceed two pages each, of up to three previous applicable projects of a similar scope. Note: no more than three project descriptions will be reviewed.
- Reference information for each of the above-referenced projects should be provided, including contact name, title, phone number, and email address. Up to two additional references may be provided at the proposer's discretion.

Negotiation

Upon determining the highest-ranking proposal, RIPTA may negotiate with the proposer prior to entering into a contract. If the proposer is unable to fulfill the entire scope of work within the allocated project budget, RIPTA may, at its discretion, either negotiate with the next highest-ranking proposer who is able to fulfill the entire scope of work or negotiate with the highest-ranking proposer to develop a modified scope that meets the overall project requirements. Examples of acceptable modifications include adopting an alternative survey methodology or refining the confidence interval and/or sample size, but not deleting project tasks or required data elements.

Terms of Payment

All proposals must include a cost for each task item. The sum of these tasks will equal the value of the entire contract. Each task shall include a list of team members involved in that task along with hours and pay rates for those members, including all sub-contractors. The value of each individual task shall be equal to the value of hourly work of the entire team. Each task shall also include a list of deliverables to be provided in association with that task, along with the value of each deliverable.

Payment will only be authorized for deliverables completed and accepted. Payment for Project Coordination deliverables (meeting coordination) may be made on a monthly basis for any meeting completed, including agenda and minutes. Payment will be based on hourly value of this work. No other partial payments or progress payments will be considered.

Upon acceptance of a deliverable (or deliverables), the contractor may submit an invoice reflecting the value of work completed up to the amount of the deliverable. Invoices must include all hours and pay rates for each team member. Invoices may not exceed the amount noted in the proposal without prior written approval. In the event that the approved hours exceed the hours actually used, the contractor may not apply those hours under another scope task without prior written approval.
