

**ADDENDUM NO. 2
TO
DOCUMENTS AND SPECIFICATIONS
FOR
WELL 10 PUMP STATION MODIFICATION PHASE 1**

This Addendum No. 2 forms a part of the Contract Documents and modifies the Bidding Documents dated October 2022 and Addendum No. 1. Acknowledge receipt of this Addendum in the space provided in SECTION 00300, FORM FOR GENERAL BID. Failure to do so may subject the Bidder to disqualification. This Addendum consists of four (4) pages and two (14) pages of attachments.

CHANGES TO BE MADE TO CONTRACT DOCUMENTS

1. SECTION 00700 STANDARD GENERAL CONDITIONS (RHODE ISLAND)
 - A. Add the attached wage rates to the end of this section.
2. SECTION 00858 SPECIAL CONDITIONS PERMIT
 - A. Add the following note to the end of this section,

“Permits must be pulled from the Town of East Greenwich. The town will waive the contractor’s permit fees.
2. SECTION 08390 PRESSURE RESISTENT FLOOD BARRIER
 - A. Add the following note to the end of paragraph 2.02 Equipment A1,
“Protection level for flood barrier door shall be 21” above finish floor of the pump station”.

CONTRACT DRAWINGS

1. SHEET M-2
 - A. In General Notes, add “Contractor shall remove and clean all remnants of Sodium Hydroxide Chemicals within containment area.” See photo.

- B. Remove note to demo exhaust fan. The town will keep this unit in place.
 - C. Add note to demo and refinish floor for the following equipment pads,
 - a. Chlorine bulk tank pad (dim. 7'x 5'x 4")
 - b. Chlorine day tank pad (dim. 2'x 2'x 6")
 - c. Generator pad (dim. 5'x 4'x 12")
2. SHEET H-2
- A. Remove note to demo louver located to the right side of the double door. The town with keep the existing louver in place.
 - B. Remove note to demo exhaust fan. The town will keep this unit in place.
3. Add Drawing E-3 to the drawings.
4. Sheet E-1
- A. Remove General Note 1.

QUESTION AND RESPONSES

1. Do prevailing wage rates apply to the project and if so can you provide a wage rate schedule ?

Response: Wage rate apply to this project. Wage Rates Schedule is attached.

2. The Construction Journal has the project listed as State Agency - University of Rhode Island ? Can you explain this agency affiliation to the project.

Response: There is no affiliation with this project with University of Rhode Island.

3. Will contractor be required to pay construction permit fees and demolition fees or will they be waived ?

Response: These will be waived by the Town of East Greenwich.

4. For the double door size can you provide any rough dimension or detail on this ?

Response: Rough dimensions are 56” wide by 83” tall (to be verified in the field).

5. Are there any equipment pads being demoed ?

Response: Yes, see attached notes added to the demo drawing M-2.

6. Is any Electrical conduit being demoed ?

Response: Refer to Drawing E-1 Demo note #1.

7. Drawing M-3 doesn’t call for brick at openings at the exhaust fan (next to the generator) called out to be removed on drawings M-2 & H-2 and the louver next to the front door that is called out to be removed on drawing H-2. Please clarify.

Response: See changes to drawing M-2 and H-2. The town will retain the existing louver to the right of the door and the existing exhaust fan.

8. Drawing M-2 calls for removal of an eyewash station and to leave a 2nd eyewash station. There was talk on site about switching these stations; please confirm scop.

Response: The eyewash nearest the entrance to the pump station will stay for reuse, the other eyewash unit at the existing chlorine bulk tank will be demoed as shown on the plans.

9. A note on the bottom of drawing calls out to “Return Remaining Valves to Town ..”; the note points at 2 valves. Please confirm if this is only for these two valves, or for all valves, or somewhere in between. A 3rd valve in the center of this plan also calls out to be reused, maybe it is just the valves called out.

Response: It is the intent to remove all process water piping and valves except for three valves as called out on the plans. These valves will be marked prior to demo work so they can be returned to the owner.

10. Drawing E-1 general note #1 calls for new housekeeping pad for a VFD? There is no note/size shown on the plan for a new pad, or a new VFD. Please confirm this is true and that this is just an old note.

Response: There are no new housekeeping pads or electrical installations as a part of this contract. Remove note.

13. Also, please confirm there is no new electrical work other than capping-off/making-safe at the few items to remain like the transformer and the 2 gas fired heaters. (Like note #7 stating receptacles & switch heights, but not showing anything new required.)

Response: There are no new electrical installations as a part of this contract.

14. There are several existing housekeeping pads currently in the building in various shapes. I don't see where they are called to be removed on the drawings or in the specs. The housekeeping pads aren't shown on the M-3 proposed plan. Spec section 02065 (1.01E) does list the containment wall to be removed but it isn't called out on the plans. Advise/clarify if all raised pads are to be removed; one is still called out as there in the room next to the electrical equip rm.

Response: There are three housekeeping pads to be removed for the existing chlorine bulk tank, day tank, and generator.

15. Related question: Do the pipe trenches remain with the wood planks over them?

Response: Yes

16. Spec section 02800-1.03A has logs for "six" wells, it states seven later in the same paragraph. Please clarify.

Response: There are seven total wells to be abandoned as listed in table under Section 02800-1.03A and shown on drawing C-1.

17. I was contacted by Mitch from PS Flood Barriers this afternoon. What is the height of the flood door? Does it got the full 8' - 8" height of the masonry opening? I am "guessing" yes. Please clarify.

Response: The flood door does not need to span the entire height of the door. Refer to Section 08390 Pressure Resistant Flood Barrier 2.02 Equipment A1.
The flood level is 21" above finish floor.

"General Decision Number: RI20220001 12/09/2022

Superseded General Decision Number: RI20210001

State: Rhode Island

Construction Types: Building, Heavy (Heavy and Marine) and Highway

Counties: Rhode Island Statewide.

BUILDING CONSTRUCTION PROJECTS (does not include residential construction consisting of single family homes and apartments up to and including 4 stories) HEAVY, HIGHWAY AND MARINE CONSTRUCTION PROJECTS

Note: Contracts subject to the Davis-Bacon Act are generally required to pay at least the applicable minimum wage rate required under Executive Order 14026 or Executive Order 13658. Please note that these Executive Orders apply to covered contracts entered into by the federal government that are subject to the Davis-Bacon Act itself, but do not apply to contracts subject only to the Davis-Bacon Related Acts, including those set forth at 29 CFR 5.1(a)(2)-(60).

If the contract is entered into on or after January 30, 2022, or the contract is renewed or extended (e.g., an option is exercised) on or after January 30, 2022:	<ul style="list-style-type: none">. Executive Order 14026 generally applies to the contract.. The contractor must pay all covered workers at least \$15.00 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on the contract in 2022.
If the contract was awarded on or between January 1, 2015 and January 29, 2022, and the contract is not renewed or extended on or after January 30, 2022:	<ul style="list-style-type: none">. Executive Order 13658 generally applies to the contract.. The contractor must pay all covered workers at least \$11.25 per hour (or the applicable wage rate listed on this wage determination, if it is higher) for all hours spent performing on that contract in 2022.

The applicable Executive Order minimum wage rate will be adjusted annually. If this contract is covered by one of the Executive Orders and a classification considered necessary for performance of work on the contract does not appear on this wage determination, the contractor must still submit a conformance request.

Additional information on contractor requirements and worker protections under the Executive Orders is available at <https://www.dol.gov/agencies/whd/government-contracts>.

GROUP 6: Low-bed or boom trailer.

GROUP 7: Trailers when used on a double hook up (pulling 2 trailers)

GROUP 8: Special earth-moving equipment, under 35 tons

GROUP 9: Special earth-moving equipment, 35 tons or over

GROUP 10: Tractor trailer

WELDERS - Receive rate prescribed for craft performing operation to which welding is incidental.

=====
Note: Executive Order (EO) 13706, Establishing Paid Sick Leave for Federal Contractors applies to all contracts subject to the Davis-Bacon Act for which the contract is awarded (and any solicitation was issued) on or after January 1, 2017. If this contract is covered by the EO, the contractor must provide employees with 1 hour of paid sick leave for every 30 hours they work, up to 56 hours of paid sick leave each year. Employees must be permitted to use paid sick leave for their own illness, injury or other health-related needs, including preventive care; to assist a family member (or person who is like family to the employee) who is ill, injured, or has other health-related needs, including preventive care; or for reasons resulting from, or to assist a family member (or person who is like family to the employee) who is a victim of, domestic violence, sexual assault, or stalking. Additional information on contractor requirements and worker protections under the EO is available at <https://www.dol.gov/agencies/whd/government-contracts>.

Unlisted classifications needed for work not included within the scope of the classifications listed may be added after award only as provided in the labor standards contract clauses (29CFR 5.5 (a) (1) (ii)).

The body of each wage determination lists the classification

and wage rates that have been found to be prevailing for the cited type(s) of construction in the area covered by the wage determination. The classifications are listed in alphabetical order of ""identifiers"" that indicate whether the particular rate is a union rate (current union negotiated rate for local), a survey rate (weighted average rate) or a union average rate (weighted union average rate).

Union Rate Identifiers

A four letter classification abbreviation identifier enclosed in dotted lines beginning with characters other than ""SU"" or ""UAVG"" denotes that the union classification and rate were prevailing for that classification in the survey. Example: PLUM0198-005 07/01/2014. PLUM is an abbreviation identifier of the union which prevailed in the survey for this classification, which in this example would be Plumbers. 0198 indicates the local union number or district council number where applicable, i.e., Plumbers Local 0198. The next number, 005 in the example, is an internal number used in processing the wage determination. 07/01/2014 is the effective date of the most current negotiated rate, which in this example is July 1, 2014.

Union prevailing wage rates are updated to reflect all rate changes in the collective bargaining agreement (CBA) governing this classification and rate.

Survey Rate Identifiers

Classifications listed under the ""SU"" identifier indicate that no one rate prevailed for this classification in the survey and the published rate is derived by computing a weighted average rate based on all the rates reported in the survey for that classification. As this weighted average rate includes all rates reported in the survey, it may include both union and non-union rates. Example: SULA2012-007 5/13/2014. SU indicates the rates are survey rates based on a weighted average calculation of rates and are not majority rates. LA indicates the State of Louisiana. 2012 is the year of survey on which these classifications and rates are based. The next number, 007 in the example, is an internal number used in producing the wage determination. 5/13/2014 indicates the survey completion date for the classifications and rates under that identifier.

Survey wage rates are not updated and remain in effect until a new survey is conducted.

Union Average Rate Identifiers

Classification(s) listed under the UAVG identifier indicate that no single majority rate prevailed for those classifications; however, 100% of the data reported for the classifications was union data. EXAMPLE: UAVG-OH-0010 08/29/2014. UAVG indicates that the rate is a weighted union average rate. OH indicates the state. The next number, 0010 in the example, is an internal number used in producing the wage determination. 08/29/2014 indicates the survey completion date for the classifications and rates under that identifier.

A UAVG rate will be updated once a year, usually in January of each year, to reflect a weighted average of the current negotiated/CBA rate of the union locals from which the rate is based.

WAGE DETERMINATION APPEALS PROCESS

1.) Has there been an initial decision in the matter? This can be:

- * an existing published wage determination
- * a survey underlying a wage determination
- * a Wage and Hour Division letter setting forth a position on a wage determination matter
- * a conformance (additional classification and rate) ruling

On survey related matters, initial contact, including requests for summaries of surveys, should be with the Wage and Hour National Office because National Office has responsibility for the Davis-Bacon survey program. If the response from this initial contact is not satisfactory, then the process described in 2.) and 3.) should be followed.

With regard to any other matter not yet ripe for the formal process described here, initial contact should be with the Branch of Construction Wage Determinations. Write to:

Branch of Construction Wage Determinations
Wage and Hour Division
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

2.) If the answer to the question in 1.) is yes, then an interested party (those affected by the action) can request review and reconsideration from the Wage and Hour Administrator (See 29 CFR Part 1.8 and 29 CFR Part 7). Write to:

Wage and Hour Administrator
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

The request should be accompanied by a full statement of the interested party's position and by any information (wage payment data, project description, area practice material, etc.) that the requestor considers relevant to the issue.

3.) If the decision of the Administrator is not favorable, an interested party may appeal directly to the Administrative Review Board (formerly the Wage Appeals Board). Write to:

Administrative Review Board
U.S. Department of Labor
200 Constitution Avenue, N.W.
Washington, DC 20210

4.) All decisions by the Administrative Review Board are final.
