

REQUEST FOR PROPOSAL

For: Project Management Software

The Rhode Island Commerce Corporation (“Corporation”) seeks proposals from qualified providers to provide web- or cloud-based project management software to assist the Corporation in the administration of internal projects, grants, forms, and event administration.

This document constitutes a Request for Proposal (“RFP”), in a competitive format, from qualified firms. This request is an offer by the Corporation to underwrite, in accordance with the terms and conditions of this RFP, the services proposed by the successful firm(s), by contract.

The respondents (“Proposers”) to this RFP shall provide a proposal, in accordance with the terms and conditions set forth herein, to provide the services to the Corporation described in the Scope of Work.

Project Overview

The Corporation presently manages projects—including tracking tasks, assignments, document versioning, and decisioning—through SharePoint files and spreadsheets. The Corporation will utilize this web- or cloud-based software to internally align work, people, and technology across the Corporation. The goal of this project is to bring departments, processes, and technology together to connect the work being done across the Corporation — and ensure alignment with goals — on a centralized, cloud-based platform. Proposers to this RFP should respond specifically for the software that will support the Corporation as staff builds out the larger project.

Background

The Corporation works with public, private, and nonprofit partners to create the conditions for businesses in all sectors to thrive and to improve the quality of life for our citizens by promoting the state’s long-term economic health and prosperity. We offer business assistance, access to funding and red tape reduction for companies of all sizes.

As a quasi-public agency, we are the official full-service, economic development organization for the state of Rhode Island.

The Corporation manages a number of federal grants; state incentive grant, and business support programs; tourism and business attraction efforts; and internal systems and processes. Current workflow is managed differently by each team within the Corporation. This effort seeks to align all Corporation project management by utilizing one web- or cloud-based project management software. There are about sixty-five employees at the Corporation that may utilize the software at a given time. The Corporation uses Microsoft Office, Microsoft Teams, and SharePoint for file creation, storage, and sharing.

Scope of Work

The Corporation seeks to engage a web- or cloud-based project management software that provides the following functionalities:

1. Easy-to-navigate in-platform apps: The ability to add/embed intuitive web and mobile apps to project management efforts, which must be able to be used by those without coding or deep technical skills.
2. Secure request management: The ability to manage multi-step processes by sharing only what is needed to the right people at the right time.
3. Intelligent, automated workflows: The ability to connect data across and between the project management software and other data systems used by the Corporation (e.g., Microsoft Suite) and automate routine tasks such as emailed reminders for task due dates, increasing accuracy and efficiency.
4. Governance and administration: The ability for senior management to have visibility and usage insights of users and efforts across the platform in order to enhance monitoring and reporting capabilities.
5. Consistent digital asset management that is interoperable with Microsoft products: The ability to manage document versioning and allow proofing of materials, whether created within the project management software or external to it.
6. Integrate with the Corporation's current tech stack: Microsoft Teams and SharePoint, Adobe Creative Cloud, Salesforce, Neoserra.
7. Data Retention Controls: The ability to store data and ensure data retention for record maintenance and data protection that is consistent with State Data Retention policies.
8. Mobile App: The ability to view and utilize the full functionality of the web- or cloud-based software on both desktop and mobile formats. The mobile app must work on both the iOS and Android platforms.
9. E-signatures: The ability to integrate with e-signature software like DocuSign and/or Adobe. Must be able to configure signer roles, add custom fields, allow for multiple signers, automatically track signature statuses, and generate multiple executed document versions for dissemination.

Additionally, the platform and underlying vendor must provide 24-7 online web and phone support, a dedicated representative to the Corporation, and virtual training sessions for Corporation staff. Proposals should include estimates of hours required to set up and train staff in the software as well as number of support hours that will be made available on a monthly basis. Proposals should also explain how virtual training sessions will be provided (e.g., synchronously vs. asynchronously).

Project Timeline

The successful Proposer(s) will enter into a contract for services with the Corporation. The duration of the initial contract between the Corporation and the successful Proposer is expected to begin upon the date of contract approval.

- Proposers to this RFP shall provide a proposed fee structure for providing services necessary to complete the proposed scope items. Proposers shall include a total, maximum price to accomplish the scope items incorporated in the proposal. If the Proposer contemplates any purchases or pass-through charges during the engagement, any mark-up rate above actual cost shall be identified as a separate line item in the budget. The Corporation reserves the right to adjust both the budget and related services.

Criteria for Selection

Responsive proposals for this RFP will be evaluated according to the Evaluation Criteria outlined below.

MBE/WBE/DisBE Participation (additional potential points)	6 pts

NOTE: Designated Corporation staff or selected advisors will evaluate the written proposals. The Corporation may at any time during the evaluation process seek clarification from Proposers regarding any information contained within their proposal. Final scores for each respondent will reflect a consensus of the evaluations. Any attempt by a Proposer to contact a member of Corporation staff or selected advisors outside the RFP process, in an attempt to gain knowledge or an advantage, may result in disqualification of Proposer.

1. ISBE Participation Evaluation (see below for scoring)

- a. The Rhode Island Commerce Corporation encourages MBE/WBE/DisBE participation in this Request. In accordance with Title 37, Chapter 14.1, and Title 37, Chapter 2.2 of the Rhode Island General laws, the Corporation reserves the right to apply additional consideration to MBE/WBE/DisBE up to six (6) additional points in the scoring evaluation as provided below:
- b. Calculation of ISBE Participation Rate
 - i. ISBE Participation Rate for Non-ISBE Vendors. The ISBE participation rate for non ISBE vendors shall be expressed as a percentage and shall be calculated by dividing the amount of non-ISBE vendor's total contract price that will be subcontracted to ISBEs by the non-ISBE vendor's total contract price. For example, if the non-ISBE's total contract price is \$100,000.00 and it subcontracts a total of \$12,000.00 to ISBEs, the non-ISBE's ISBE participation rate would be 12%.
 - ii. ISBE Participation Rate for ISBE Vendors. The ISBE participation rate for ISBE vendors shall be expressed as a percentage and shall be calculated by dividing the amount of the ISBE vendor's total contract price that will be subcontracted to ISBEs and the amount that will be self-performed by the ISBE vendor by the ISBE vendor's total contract price. For example, if the ISBE vendor's total contract price is \$100,000.00 and it subcontracts a total of \$12,000.00 to ISBEs and will perform a total of \$8,000.00 of the work itself, the ISBE vendor's ISBE participation rate would be 20%.
- c. Points for ISBE Participation Rate:
 - i. The vendor with the highest ISBE participation rate shall receive the maximum ISBE participation points. All other vendors shall receive ISBE participation points by applying the following formula:

(Vendor's ISBE participation rate ÷ Highest ISBE participation rate X Maximum ISBE participation points)

For example, assuming the weight given by the RFP to ISBE participation is 6 points, if Vendor A has the highest ISBE participation rate at 20% and Vendor B's ISBE participation rate is 12%, Vendor A will receive the maximum 6 points and Vendor B will receive $(12\% \div 20\%) \times 6$ which equals 3.6 points.

See Appendix A for information and the MBE, WBE, and/or Disability Business Enterprise Participation Plan form(s). Bidders are required to complete, sign, and submit these forms with their overall proposal in a sealed envelope. Please complete separate forms for each MBE, WBE and/or Disability Business Enterprise subcontractor/supplier to be utilized on the solicitation.
