Addendum# 1

BID NO.: 101450
OPENING: 2/13/25 at 1:00 PM
COMMODITY: Library Book Security System and Installation

This addendum is being issued to answer the questions received by the deadline referenced in the above bid:

Question 1: The requirements state “Installation: A wire way and a baseplate.” Currently, the library has a direct mount with a small raceway threshold for cabling. Please confirm that the library would like to maintain a consistent direct mount for the two new panels to be added to either side of the current security gate system. We understand a baseplate to be a wide metal threshold.

Answer 1: Yes. The University would like to maintain the consistent direct mount for the two new panels to be added to either side of the current security gate system

Question 2: The requirements state “Configurations: Standard configuration can support up to 6 panels to provide total coverage of 6.0m”. Can you please confirm that this request is for 2 additional panels, which will create a gate with 5 panels total?

Answer 2: Yes, this request is for two (2) additional panels to create a system of five (5) total.
