---	--	---	-------	----------	----------

Stoll ADF 530-16 ki Bc W multi gauge or Equivalent

**The unpacked Knitting Machine size cannot be wider than 1203mm no longer than 3080mm and no higher than 1810mm.

Knitting Machine Per the Specifications below:

a) To use technical and conductive yarns apart from regular textile yarns , production of yardage, semi-finished, fully finished and 3D shaped fabrics.
working width:

as close as possible to 50"/ 127 cm multi gauge, preferably gauge E7 or higher for production of finer fabrics . To include:

3 systems (3 actions per pass capability) in order to improve knitting time and saving energy with the reduced number of passes

b) multi-touch panel for the control
at least 16 yarn control units, 16 autarkic yarn carriers
controlled sinkers, switchable presser foot device
thread clamp and cutting device on each side
fabric take-down system with comb, suction device
weave-in device

c) battery back-up

d) electric installation parameters: 230/400 V., 50/60 Hz.

e) Packing/Transport

The machine should be delivered to the URI Central Receiving Department.

The delivery truck needs a lift gate.

After the machine is uncrated, brought in from the Central Receiving facility to the designated area by URI and connected to power, the vendor inspects it, installs software on the PC that will be provided by URI, and runs the machine.
