Attachment A **Scope of Work**

RIHousing seeks to engage qualified contractors to perform lead hazard reduction and healthy homes work in residential units enrolled in RIHousing’s LeadSafe Homes Program (“LSHP”) receiving funding under the state lead program.

RIHousing accepts eligible properties into the LSHP pursuant to the program’s procedures and protocols, and upon review of the results of the property’s certified environmental lead inspection and physical inspection, a RIHousing Construction Specialist develops a detailed and specialized scope of work necessary to address each property’s lead-based paint hazards and health and safety hazards. RIHousing, at its election, may then submit the project to public bid (as contemplated by another RFP) or engage a contractor for services in accordance with RIHousing’s so-called “round robin” contractor pool pursuant to a Blanket Purchase Agreement (“BPA”) (contemplated by this RFP).

To be an eligible contractor able to participate in the “round robin” process relative to specific properties’ scopes of work to remediate lead based-paint hazards and address health and safety concerns within a specific period of time for performance (which is determined on a project by project basis), contractors shall submit proposed pricing for the items identified on the Work Specifications Schedule and the RIHousing LeadSafe Homes Program contractor application (both accessible on this RFP posting located on <https://www.rihousing.com/rfps-rfqs/>). Upon meeting initial eligibility criteria, contractors shall be eligible to participate in both the public bid process (as contemplated by a separate RFP) or the “round-robin” contractor pool in accordance with this RFP, subject to RIHousing’s contractor protocols and associated regulations. Continued participation shall be contingent upon successful completion of projects with the LSHP. Although the LSHP intends for the Work Specifications Schedule to be comprehensive, the LSHP reserves the right to modify the Work Specifications Schedule to add or remove Work Specification items as may be required.
