### **SECTION 1 - INTRODUCTION**

The Rhode Island Department of Administration, Division of Purchases, on behalf of the Rhode Island Department of Health (HEALTH), Division of Community, Family Health and Equity is requesting Letters of Interest (LOI) from qualified consultant(s) to launch a Retailer Relations project with select neighborhood corner stores to include but not limited to educating store owners about the FDA law and regulations restricting advertising, marketing and promotion of tobacco products, building positive relationships with store owners, assisting with the procurement of healthier foods and beverages, and assist in leveraging resources to make the project successful and sustainable.

### **Background**

The Rhode Island Department of Health (HEALTH), Division of Community, Family Health and Equity was awarded the *Communities Putting Prevention to Work - Physical Activity Nutrition & Tobacco (PANT)* grant through the American Reinvestment and Recovery Act (ARRA) issued by the Centers for Disease Control (CDC) to strengthen existing youth tobacco access laws and make unhealthy food choices less attractive by supporting environmental policy change. A component of *PANT* is an integrated project between the Tobacco Control Program and the Initiative for a Healthy Weight Program that will address the Family Smoking and Prevention and Tobacco Control Act, referred to as the FDA law and develop innovative partnerships with community based store owners to make healthier foods more prominent and available.

The Tobacco Control Program's priority areas include:

- Prevent initiation of tobacco use among young people
- Eliminate exposure to second hand smoke
- Identify and eliminate tobacco related disparities

Initiative for a Healthy Weight's priority areas include:

- Improve access to affordable healthy foods
- Improve community walkability
- Increase access to safe and affordable recreation
- Reduce access to unhealthy foods

This LOI will incorporate best practices from around the country to build positive Retailer Relations in select cities that are not currently receiving ARRA funds to do similar work. The scope of work will include but not limited to educating store owners on the FDA law restricting marketing/promotion and point of purchase for tobacco products, store design and layout, fresh produce sourcing and access, community engagement and other innovative strategies to create a healthier corner store environment and support FDA compliance.

Up to \$60,000 is available for the project period beginning approximately February 01, 2011 – January 31, 2012 to one or more consultant entities that can demonstrate knowledge, experience, and accomplishments in policy change work at the state and local level, including training and

coaching, mobilizing communities, and working directly with retailers around healthy food access and compliance with the FDA law. Consideration will be given to modifying the contract amount based on a need for service within the contract's scope of work, contractor's performance, and the availability of funding.
